

Blue Water Administrators Testimonial

"The **benefitsCONNECT**® system really makes a broker's life easier. The ability to administer a group's benefit enrollments without requiring constant intervention not only lessens the broker's responsibilities, it also allows the group to be more hands-on and take control without constant concerns about data integrity.

"The **benefitsCONNECT**® team is very helpful and proactive. Their ability to adapt to the constant changes that occur when administering a group's benefit enrollments allows for flexibility to accommodate the needs of the customer and the needs of the broker. The system and the team allow for a product that meets both the broker's and customer's wishes and provides a great user experience."
