

# IMPLEMENTATION!

JANUARY 10

**DID YOU KNOW** that **benefitsCONNECT®** provides implementation services? If you have no time or desire to set up your groups on **benefitsCONNECT®**, simply send us your data and our expert implementation team will help you prepare for and support you throughout each successful enrollment.

Implementation provides brokers with outsourced expertise in setting up an employer group and all their benefit plans. Whether creating unique contingency rules or complex rate tables, our implementation team will strive to meet all of the group's needs. Plan types included in a basic implementation are medical, dental, vision, prescription, basic life, voluntary life, LTD, STD, AD&D, group long term care, 401(k), EAP, voluntary pre-paid legal, transit check, parking garage reimbursement, and fitness club. This includes uploading data into **benefitsCONNECT®**, building benefit options, creating divisions and departments, and testing the site prior to open enrollment.

In a full service implementation, our team will add employee dependent information, as well as any current or future elections. This level also includes current plan information and new plan set-up for the group's future open enrollment.

Once set-up is complete, employees will log on during open enrollment to add dependents and create benefit elections. Following the initial setup for your group, you will have access to our general **benefitsCONNECT®** support for any database questions, uploads, or changes that occur throughout the year.

On-Going HR Administration includes full service implementation, as well as your own personal implementation specialist. Our implementation team will continually update your account to meet your needs, for things like plan/carrier changes, terminations, and new hires. This level also provides personal support for your company admin as well as the broker.

For more information on **benefitsCONNECT®** implementation services, please contact our sales team at 877.426.8750 or [sales@benefitsCONNECT.net](mailto:sales@benefitsCONNECT.net).
